### Notes for solution

You can start with

4 Down	13 across	6 across	8 across and 12 across should be solved at the same time
Leads to 3 across and 7 across	Leads to 11 down and 9 down	Leads to 2 down and 10 across	Leads to 1 across, 5 across and 1 down
7 across leads to 7 down	9 down gives 9 across, which isn't needed, digits given by 9 down and 7 down.
