

Year 12 Problem Solving Course 2016/2017

This course, run by the Further Mathematics Support Programme, aims to develop the mathematical thinking of Year 12 students and is particularly aimed at those who are likely to take STEP, AEA or MAT exams in Year 13.

No knowledge of modules other than Core 1 and Core 2 will be assumed.

There are ten sessions, all taking place from 4.30pm until 6pm on Mondays:

Date	Topic
7 November	Algebra 1
21 November	Geometry 1
5 December	Number 1
19 December	Algebra 2
16 January	Number 2
30 January	Number 3
27 February	Algebra 3
13 March	Geometry 2
27 March	Calculus 1
24 April	Calculus 2

The circle in the diagram has radius 6 cm. If the perimeter of the rectangle is 28 cm, what is its area?

Source: UKMT

All sessions will take place at the Penrhyn Road campus of Kingston University.

Booking a place:

This course is free but places are limited and so must be booked in advance by teachers. There is a limit of 2 places per school.

Please email Jenny Davey on jennydavey@furthermaths.org.uk to book a place.
