- **Maths and Careers**  
Q&A session with a variety of undergraduates and professionals who use maths in their work
- **Team Maths Quiz**  
Dynamic team competition
- **Tour of the university**  
with student ambassadors

**A day of stimulating mathematical activities for Year 10 students.**

The **Further Mathematics Support Programme**, the **University of Bath** and the **University of Bristol** are pleased to announce a series of enrichment events for year 10 mathematics students from schools in the South West.

The emphasis of the day will be that mathematics can be both **fun** and **challenging**, and that studying mathematics beyond GCSE is a path to a variety of exciting university courses and careers.

We hope that you will be able to bring a group of up to 15 who would benefit from a mathematics enrichment event. The programme of the day for all three dates will be very similar so students should only attend one date. Each day will take place from 9:30 to 15:30.

We anticipate that the event will challenge the students whatever their ability, but that middle ability students and above should find the content accessible and stimulating. We suggest that you bring equal numbers of boys and girls if possible.

All students attending must be accompanied by a member of staff from their school who will be responsible for the students throughout the day. Further details will be sent out prior to the event.

- Students should bring their own packed lunch
- Buffet lunch provided for teachers and presenters

The event is free to students and their teachers from state funded schools and is supported by funding from the Further Mathematics Support Programme.

### **Booking Details**

- To reserve places please complete the online booking form
