

Easter Lectures

For YR 9/10 Students

Tuesday April 4th 2017

10.00 to 12.30

Curtis Auditorium

Herschel Building

Newcastle University

The Further Maths Support Programme invites you to send 15 students, and one interested teacher, to the above event. The lectures will be given by Aoife Hunt and Katie Steckles.

The talks are:

Maths Jamming: An exploration of the links between music and mathematics.

The Hidden Maths of Technology: There are numbers all around us that make our modern lives possible. From rescuing your lost words in text messages to taking selfies. A look at the maths behind the technology that make things work.

This event is FREE to schools Registered with the FMSP (check your registration is up to date)

To book places for this event please contact Phil Moxon for a booking form:

philmoxon@furthermaths.org.uk

We expect high demand for places so an early reply would be in your best interests.

(Please reserve places only if you are definitely going to attend)

There is no parking available at the university, but the Herschel Building is opposite the Haymarket Metro/Bus station.
