

The Further Mathematics Support Programme

<http://bit.ly/22March2017>

**Problem Solving Conference
for Year 12 Students and Teachers**

Wednesday 22 March 2017

4.00 – 6.00 pm

**A session for sixth form students &
their teachers to develop deeper
mathematical problem-solving skills.**

Course leaders

Mike Baxter & Richard Stakes

Mike is an FMSP Associate who delivers various student and CPD events, having taught Maths for 25 years.

and Richard is an FMSP Area Coordinator and Teaching Fellow at Keele University.

This event is FREE for all students from State Funded Schools.

Refreshments are provided.

To book places on this course please go to:

22 March 2017

Painsley Catholic College

Station Road,

Cheadle,

Staffordshire, ST10 1LH

Directions to Painsley can be found at:

http://www.painsley.co.uk/?page_id=160

Conference aims and description

This event is ideal for Year 12 students who are thinking of applying to study mathematics, engineering or related university courses and the event aims:

- to provide students with an opportunity to increase their depth of mathematical understanding and so gain confidence in attempting challenging questions asked in STEP/AEA/MAT papers.
- to allow students to discuss and try out problem solving strategies, to think about different ways of looking at example problems and how to approach writing solutions.
- Teachers can attend with their students and will have the opportunity to work on problems and learn about potential sources of problems.
