Large Data Sets in the 2017 A Levels

Tuesday 25th April, 16:00 – 17:30

Refreshments from 15:30

During this session, we will be looking at ideas for teaching Large Data Sets in the new Maths A level. To participate fully in the session, you will need to bring a laptop with both Excel and GeoGebra already installed. You will be given a USB containing a data set and will have to chance to explore teaching ideas using both Excel and GeoGebra.

Further information:

For more information and to book a place, please contact Sinéad Vaughan or James Morris:
