

The Further Mathematics Support Programme

Use of technology in the new A level

A half day network event focusing on the development of using technology in the new A level starting in 2017

Outwood (Adwick) Conference Centre, Doncaster, DN6 7EQ

Tuesday 13th June 1pm – 3.30pm

“The use of technology, in particular mathematical and statistical graphing tools and spreadsheets, must permeate the study of AS and A level mathematics.”

The main focus of this event will be sharing the use of graphing tools and Geogebra

Use of calculator training (Casio)

Following the network an additional event will take place led by Casio trainer Stephen Kean.

Time: 4pm – 5.30pm

The main focus of this training will be to explore the use of the graphical calculator whilst reference will be made to using calculators in the new A level.

The cost of both these events is **FREE** . *Colleagues may attend either or both sessions.*

To book a place at either, please complete the online form: <https://goo.gl/forms/q6pWoSBPMkJBEyNu2>
