### **Don't miss our future meetings**

6 meetings will be held during the 2017-18 academic year. Dates have not yet been confirmed

# The Canterbury Mathematics Teacher Network

## Preparing for the New Mathematics A Levels – Developing a scheme of work

### **At this meeting:**

Planning a coherent linear scheme of work for the new A levels in Maths and Further Maths will be a challenging and time-consuming task. The Kent and Medway Maths Hub have recognized this challenge and have begun the process for us. In this session we will look at the work that they have undertaken so far and extend it so that we are able to develop schemes of work that are bespoke to our own institutions. Our objective will be to optimise the pathways available to A level Maths and Further Maths students using the free FMSP online Course Planner as our principal tool for doing so.

This will be a 'hands on' session and is recommended to all teachers of A level Mathematics.

To confirm attendance please complete this form: [book here](#)

This session is free thanks to funding from the FMSP. Light refreshments will be provided.

The Canterbury Mathematics Teacher Network is an FMSP-funded project allowing teachers of mathematics to meet, collaborate and share professional development. We meet each term for a mixture of informal sessions and speaker-led training events.
