

## The Further Mathematics Support Programme

# Taking Maths Further

**A free enrichment programme for KS4 pupils highlighting the opportunities afforded by studying Mathematics into Years 12 and 13.**

**At the University of Surrey on the 22nd September 2017,  
10am – 3:45pm**

A free enrichment day for KS4 students:

Fun workshops and talks:

- Creation of Number,
- Fun Maths Roadshow,
- Beyond the Third Dimension,
- Royal Engineers Bridge Building.
- 'Taking Maths Further' Maths progression opportunities and careers

**This event is suitable for “new to year 11” students who might benefit from studying maths or further maths at A-level.**

We anticipate this event will challenge students of any ability, but that middle ability students and above should find the content accessible and stimulating.

**Venue:** We are extremely fortunate to be holding this event in the Lecture Theatre Block at The University of Surrey. Full directions and details on parking will be provided to those attending.
