

The Further Mathematics Support Programme

Oxford Entrance Exam Preparation

A half-day event to help prepare for the Entrance Maths Test (EMAT) usually required by Oxford University and Imperial College London.

Event details:

**Saturday 14th October
2017**

9am – 1pm

Mathematical Sciences, University
of Nottingham

This course will be an intensive half-day preparation event for the Oxford Maths Entrance Test (also used by Imperial College, London) and will be delivered by a representative of the University of Nottingham who is highly experienced in A-level/university mathematics and presenter of such material.

The course is intended for students applying for degree courses in **Mathematics (G100), Mathematics & Statistics (GG13) or Mathematics and Philosophy (GV15).**

The course aims to test the **depth of mathematical understanding** rather than a breadth of knowledge. Students will get the chance to work on their problem solving skills and try out numerous exam questions.

****The fee for this event is £20 per student to include resources and refreshments****
