The Canterbury Mathematics Teacher Network

A Level Maths and Further Maths 2017

At this meeting:

How ready are you for teaching the 2017 mathematics A levels? What effect has the new GCSE had on your admissions criteria and the number of students taking up A Level mathematics. Are you aware of all the ways in which the FMSP can support you this year?

This will be an information gathering session to refine our delivery of A Level mathematics. Colleagues will discuss fallout from the new GCSE, identify the challenges ahead in A Level teaching and be made aware of the many ways in which the FMSP can offer support.

Integral has been through a significant overhaul to make it 2017 ready. Please bring a laptop with you to re-familiarise yourself with this outstanding resource.

This session is free thanks to funding from the FMSP. Light refreshments will be provided.

The Canterbury Mathematics Teacher Network is an FMSP-funded project allowing teachers of maths to meet, to collaborate and to share professional development. We meet each term and the programme is a mixture of informal sessions and speaker-led training events.
