

Maths and Beyond

2018 - 10th Anniversary!

A day of Maths Inspiration for students in Years 10 and 11

Maths in the Movies **Adam Boddison**

Adam is returning to the University as keynote speaker after being involved in the very first Maths and Beyond event 10 years ago!

Maths in the Movies is an exploration of the mathematics involved in a range of movie, television and radio clips. The variety of media clips will appeal to both students and teachers and the session may even include a sprinkle of mathematical magic. The mathematics covered includes GCSE and A-level mathematics spanning pure, statistics and mechanics content.

Wednesday 21st March
OR
Thursday 22nd March
9:30am—3.30pm
