Teaching Core Mathematics

A FREE professional development day for teachers of Core Mathematics

Hosted at Xaverian College, Manchester.

30 November 2018, 10:00-15:30

Tom Rainbow (AMSP Core Maths Coordinator) will lead a professional development day on the teaching of Core Maths.

These questions will be considered during the day:

- How best to approach the teaching of Core Maths?
- Why is an approach that is likely to be different to those used at GCSE or A level required?
- How can a department best be set up for the teaching of Core Maths?

Course aims:

- To consider approaches to teaching Core Maths and how these might differ from GCSE or A-Level
- To provide teachers with an opportunity to discuss teaching Core Maths
- To give teachers time to work on classroom activities for Core Maths

Venue: Xaverian College, Lower Park Road, Manchester. M14 5RB.

Course/event fees and application:

This free course is offered to those teaching in state-funded schools, colleges and academies, funding of £200 is available to those schools in Opportunity and Low Participation Areas. To apply, please complete the online form on the AMSP website: <https://amsp.org.uk/form/coremaths-ac-days.php>
