Mathematics Teaching Network – hosted by Trinity School

Effective Use of Technology in the Maths Classroom

At this meeting:

In light of the increased use of hardware and software in the new A Level, this session will be an opportunity to look at resources that can build up (life) skills in the lead up. We will also have the opportunity to share and discuss effective use of technology in the classroom, what we currently use, with Bharat Patel sharing the resource he has developed, AB Maths. Please do bring ideas along – or even better, send over in advance and copies can be distributed to everyone.

You will leave the session with:

- A new network of teachers to share resources and ideas with
- FREE online resources
- FREE photocopiable resources for immediate use in the classroom

Thank you to...

This session is free thanks to the support of Trinity School and funding from the FMSP. Coffee, tea and delicious cookies will be provided.

For more information please contact:

The Trinity School Mathematics Teacher Network is an FMSP-funded project allowing teachers of maths to meet, to collaborate and to share professional development. We meet half-termly and the programme is a mixture of informal sessions and speaker-led training events.
