Case Study: Transition to University

Student – Ben Cooke

Background

Ben Cooke was a student at Denbigh High School when he first began studying with FMSP Wales. He studied S1 in school, and FP1, FP2 and M2 online through FMSP Wales during 2010/2011.

FMSP Wales caught up with Ben in October 2014, 3 years after passing his FMSP exams.

Interview

FMSP Wales: So Ben what happened after you passed your Further Maths Exams?

Ben: I got into Durham University, I'm in my 3rd Year now

FMSP Wales: Congratulations, what are you studying?

Ben: A Masters in Physics.

FMSP Wales: Do you think that studying Further Maths through FMSP Wales helped?

Ben: For sure, I got a 1st last year which was definitely part due to having done Further Maths.

FMSP Wales: Are there any ways in which you feel Further Maths specifically helped?

Ben: Getting in for one thing and it just made everything so much easier. The maths that you study in Further Maths is exactly what you do in University, you are so well prepared.

FMSP Wales: Would you recommend studying Further Maths?

Ben: I would recommend it to everyone. It not only helps you get in to the University that you want but it makes your first year so much easier.
